Our Vision

EduCare is effectively providing exemplary transformational education and afterschool programs for youth and those who support them.

EduCare is preparing youth to be healthy, whole, successful and contributing citizens, and empowering adults to be inspiring and supportive role models.

EduCare is recognized as a leading and innovative youth service provider.

EduCare is financially healthy, with abundant resources to responsibly manage and expand its programs and seamlessly run its operations, including taking great care of our people.

“EduCare’s holistic and sustainable solutions work. When children are genuinely loved, and when they are given the resources and support they need to succeed, they thrive.”

Stu Semigran

supporting & serving youth

Since 1990, EduCare Foundation has been fortunate to inspire and empower young people to become responsible global citizens, courageous and compassionate leaders, and to live their dreams.

This past year has been an inspiring year of “coming back.” It’s been a year of students relearning social skills and reestablishing comfort with once again being with their classmates; a year for building back community, and for addressing our young people’s lingering trauma and the underlying mental health needs that were accentuated during the pandemic. It’s been a year showing encouraging strides in increasing school attendance and advancing lost academic skills.

In retrospect, it has been a challenging yet gratifying year of restoring greater health and stability and a renewed spirit of hope.

This steady journey forward continues as serious mental health needs persist for an alarming number of our students. We and others have been at the forefront of addressing students’ essential social and emotional needs. Through EduCare’s models of Heartset® Education, and the ongoing kindness and dedication of our staff, we have increased our outreach of no-cost,

in-person programs for over 25,000 students, parents, and teachers, year-round, at 110 partnering schools.

As our outcomes have shown, EduCare’s holistic, sustainable solutions work. When children are genuinely loved, and when they are given the resources and support they need to succeed, they thrive – and respond positively to the needs and feelings of others. The results: more young people stay in school and graduate – and students, families, and communities prosper.

We are thrilled to share this annual report with you. With generosity of spirit and love as our “special sauce,” we aim to keep empowering our young people as we continue to build learning communities of compassion and excellence.

As you read these pages, please join us in a renewed call to action to supporting and serving our nation’s youth, so that we can all enjoy a brighter future.

With my sincere thanks to you as we partner together in uplifting young people,

Stu Semigran
President and Co-Founder

“ The EduCare staff provides the strongest
support system I could ask for. With EduCare,
I know I'll never feel alone. ”

EduCare student

a culture of kindness

Heartset® Education involves the promotion of kindness within a learning environment where students can thrive. It promotes positive connections between students, educators, and families that generate nurturing environments in the classroom and at home. It builds communities of caring that lead to student well-being and success.

We believe that to awaken young people to who they are and what their lives can become requires a “growth heartset” to complement and enhance a positive growth mindset. Students’ minds may be ready to learn, but their hearts may not.

Just as a growth mindset is a frame of mind that positively focuses one’s mental approach to challenges in life, a growth heartset is a frame of heart. **EduCare’s Eight Heartset® Skills** are woven throughout our programs and workshops for students, educators, and families.

The opportunities to create immense positive impact through growth heartset programs and SEL strategies are real and momentous. Students grow in resiliency and motivation. More young people stay in school, graduate, attend and graduate from college, and move on to lead successful, fulfilling lives – serving and uplifting themselves, their families, their communities, and our shared world.

EduCare provides exemplary transformational education, guiding young people to be healthy, whole, successful and contributing citizens, and adults to be inspiring and supportive role models.

HEARTSET® EDUCATION

ACE Programs

EduCare’s ACE (Achievement and Commitment to Excellence) Program provides comprehensive student success and character building designed to empower students to achieve excellence in personal, social, and academic pursuits through Heartset® Education principles. ACE utilizes EduCare’s years of experience and expertise in Social & Emotional Learning (SEL) to provide a foundation for safe, positive learning and growth.

Afterschool Programs

EduCare’s daily Afterschool Programs give students the opportunity to develop their unique abilities, build relationships, and find relevance in their educational experience. We offer homework assistance, tutoring, music and arts enrichment, mentoring, STEM, physical / recreational activities, leadership development, and college / career pathways services within our framework of youth empowerment and SEL.

Specialized Student Support Services

EduCare’s Specialized Student Support Services focus on case management, leadership and service learning, English-language learners support, and substance abuse prevention and intervention.

Many schools participate in LAUSD’s Take Action Campaign (TAC), giving thousands of students leadership skills, celebrating the arts, serving communities, and empowering students to mentor their peers. Other initiatives assist students to improve language skills and address tobacco and vaping use.

Case Management provides comprehensive services for at-risk and English Language Learner (ELL) students, providing them with the opportunity to meet the same academic standards as all other students.

Professional Development

Our Heartset® Education Professional Development provides school leaders, teachers, and afterschool practitioners with essential skills for developing a “growth heartset” in their teaching and learning.

Parent & Family Skills Development

We recognize that youth development begins at home and assist parents and guardians by providing tools to effectively communicate and relate to their children.

Our Parent & Family Skills Development Workshops teach strategies for parenting with greater confidence, effectiveness, and personal fulfillment.

HEARTSET® IN

ACTION

building confidence

EduCare's **ACE Program** is a comprehensive student success and character-building program, designed to empower students to achieve excellence in personal, social, and academic pursuits through Heartset® Education principles. ACE draws on EduCare's years of experience and expertise in social-emotional learning (SEL) as a foundation for safe, positive learning and growth.

EduCare's **ACE Heartbeats Workshops** are a by-product of our flagship ACE Program. Heartbeats focus on success, character-building skills, and positive school climate and connection. The goal is to empower students to achieve excellence in personal, social, and academic pursuits, building a school culture of empathy and kindness.

ACE Initiative (AI) is a year-round school support program providing students with social-emotional learning (SEL), academic and college access assistance, and holistic support services. AI also offers professional development trainings for teachers and staff, as well as customized workshops for parents, encouraging their more active participation.

School administrators are given tools and resources guiding them to create caring school cultures, encouraging student achievement, engaging parents, and supporting teacher development.

“ I can use what I learned in ACE in school because it will help me be more confident in class and confident in making friends. ”

Student, ACE graduate

“ I learned in ACE that I can be more open and step out of my comfort zone. ”

“EduCare isn’t just a program... to me it’s
more of a family. It’s a place where education
and companionship coexist.” *EduCare graduate*

I was a shy student in high school and never wanted to be called on in class; but my EduCare coordinator encouraged me to speak up. I found that I enjoyed being a leader! I came up with ideas, planned them out, and implemented them – it was so satisfying. I began working with EduCare after high school, then took a break to attend college (I graduated with a B.A. in psychology). EduCare has given me a purpose. I can give students the quality of support I received. I love what I do!

Mayra T., EduCare graduate and EduCare Senior Site Coordinator

Photo: Mayra (R) and EduCare colleagues

Research shows that students who participated in EduCare's afterschool programs for four years in high school graduated at a 23% higher rate than non-participants.

23%
more
grads

Conducted within our framework of SEL and Heartset® Education, EduCare's **Afterschool Programs** go beyond simply providing a safe afterschool environment. They actively engage students in life-changing opportunities for learning, leadership, and growth.

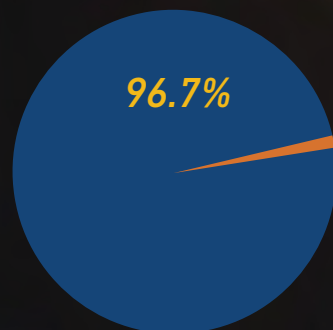

EduCare is the largest provider of high school afterschool/expanded learning for the Los Angeles Unified School District (LAUSD). During 2022-2023, including summer, we partnered with 97 elementary, middle, and high schools in LAUSD, Lynwood Unified School District (LUSD), Green Dot Public Schools, Vaughn Next Century Learning Center, and Birmingham Community Charter High School.

EduCare's afterschool/expanded learning programs wrap around a student's typical school day to provide academics, enrichment, physical fitness, and social-emotional support. Students are empowered to believe in themselves, and provided with the tools they need to succeed. Students develop their unique abilities, build positive relationships, and have a more fulfilling educational experience.

Programs are free of charge for all families, and are offered year-round, including summer.

“EduCare is an integral part of our educational services for our students. We are very fortunate and thankful for our current EduCare program and staff.”

School staff member, Diego Rivera Learning Complex

96.7% of parents answered “yes” when asked if their child was doing better at school as a result of participating in EduCare’s afterschool programs.

“The value of EduCare to our school's overall well being is priceless. Thank you.”

Teacher, Panorama High School

“EduCare made a huge impact in my education and future career, and provided me with the mentorship, support and programs I needed to grow my leadership and educational knowledge. The program gave me the strength and encouragement I needed to run for the California Association of Student Leaders State Board, where I served as a Regional Southern Director. Without EduCare I wouldn't have made it as far, and I am extremely thankful that an afterschool resource was available to guide me in roadblocks I would have otherwise faced alone.”

Axel P., EduCare graduate

PROFESSIONAL

EduCare's **Heartset® Education Professional Development** provides school leaders, teachers, and afterschool practitioners with Heartset skills for developing a growth heartset in their teaching and learning.

As a leader in the field of SEL, EduCare actively supports teachers and educators in incorporating SEL principles into the classroom to foster kind, compassionate, and effective learning environments. EduCare's Professional Development teaching materials and workshops (delivered virtually and in-person) focus on communication, self-care, and whole child education.

Parent & Family Skills Workshops are an additional, important, part of EduCare's Heartset Education. By engaging families through bilingual parent orientations, workshops (virtual and in-person), and individual outreach, we meet the essential educational needs of families and create intergenerational partnerships in support of student well-being and success.

“This was incredible. Thank you for sharing this information, it hit my heart today. Thank you!”
